CONTENTS

4-7	HPFS High Performance Fork Springs
8-10	HPSS High Performance Shock Springs
11-15	FSS Front Fork Oil Seals
16-20	DSS Front Fork Dust Seals
21-26	GBS Front Fork Guide Bushes
27-31	SBS Front Fork Slide Bushes
32-34	SASK Shock Absorber Service Kits
35-37	SSK Front Fork Piston Kit
38-39	SSRK Front Fork Piston Kit
40-41	FCV Front Fork Flow Control Valve
42-45	SDS Steering Damper System
46	20IDS Front Fork Cartridge
47	25IDS Front Fork Cartridge
48-49	RDS Front Fork Cartridge
50-51	DDS Front Fork Cartridge
52	KTR-4 Front Forks
53-54	DDS Lite Shock Absorber
55-56	DDS Pro Shock Absorber
57	Razor-R Lite Shock Absorber
58	Razor-R Shock Absorber
59	Razor-RR Shock Absorber
61-62	Tracker Front Fork Cartridge
63-64	Bullit Shock Absorber
65-66	Razor Lite Shock Absorber
67-68	Razor Shock Absorber

For more than 17 years, K-tech Suspension has specialised in the design, manufacture and supply of high quality motorcycle suspension products.

Our growing inventory of high performance suspension products are designed and assembled in the UK in dedicated production departments, with testing facilities to guarantee quality and performance.

K-tech holds one of the largest stocks of replacement service parts in Europe at a dedicated distribution centre in the UK and aims to offer customers a reliable delivery service.

Our ISO9001 accreditation demonstrates the company's dedication and passion for providing customers with first class sales and technical services, maintaining exceptional quality, customer service and traceability of products for our international network of distributors and dealers.

All information included in this catalogue was correct at the time of printing. To see the latest product information visit store.ktechsuspension.com.

K-tech front fork springs are manufactured from the highest grade chrome silicone wire. Each spring is cold-coiled, heat-treated, pre-set and ground to length before being polished for ultimate performance. All springs have their rate laser etched on the end and are manufactured to DIN 2095 grade 1.

- Cold-coiled
- Heat-treated
- Tempered
- Shot-peened
- Ground ends
- Polished for reduced friction and smoother performance
- Part number etched

K-tech shock springs are manufactured from the highest grade chrome silicone wire. Each spring is cold-coiled, heat-treated, pre-set and ground to length. Phosphate coating is then applied to protect against corrosion and then powder-coated before the part number is applied. All springs are manufactured to DIN 2095 grade 1.

- Cold-coiled
- Heat-treated
- Tempered
- Shot-peened
- Ground ends
- Zinc phosphate coated
- Epoxy powder coated
- Part number printed

K-tech Front Fork Guide Bushes are a direct replacement, manufactured to the exact standards of the original equipment parts. They are manufactured from hardened steel and coated with copper for added protection.

The contact surfaces are a PTFE material designed to give low friction on the moving parts. All guide bushes are supplied in pairs and are available for a wide range of fitments.

K-tech Front Fork Slide Bushes are a direct replacement, manufactured to the exact standards of the original equipment parts. They are manufactured from hardened steel and coated with copper for added protection.

The contact surfaces are a PTFE material designed to give low friction on the moving parts. All slide bushes are supplied in pairs and are available for a wide range of fitments.

K-tech Shock Absorber Service Kits are supplied with an oil seal, dust seal, piston rod bush and most O-rings needed to service shock absorbers. All of the service parts are either equal or exceed the quality of the original parts. Most service kits are supplied with a new piston rod lock nut for added security when rebuilding the shock absorber.

K-tech SSK piston kits are available to fit most front fork cartridge damping systems. They have been designed for road and track use to give enhanced damping control over the original equipment, giving comfort and confidence to the rider.

All piston kits are supplied as a complete assembly for ease of fitment with new control valves and needles to give more precise range of adjustment.

- Designed and manufactured in the UK
- Tighter tolerance for improved performance over original equipment parts
- Improved adjustment range
- Complete assemblies for ease of fitment
- Increase comfort and confidence

**The SSK piston kits are only available through K-tech authorised dealers who have been trained to install these products. There are specialist tools and techniques required during fitting to guarantee performance and safety of this product.*

K-tech SSRK piston kits are available to fit most front fork cartridge damping systems. They have been designed for track use to give enhanced damping control for race level performance.

All piston kits are supplied as a complete assembly for ease of fitment with new control valves and needles to give more precise range of adjustment. It is advised that these piston kits should not be used for normal road riding conditions.

- Designed and manufactured in the UK by the K-tech race department
- Tighter tolerance for improved performance over original equipment parts
- Improved adjustment range
- Complete assemblies for ease of fitment
- Increase performance and confidence
- Proven track performance

**The SSRK piston kits are only available through K-tech authorised dealers who have been trained to install these products. There are specialist tools and techniques required during fitting to guarantee performance and safety of this product.*

K-tech Flow Control Valve are available to fit most front fork cartridge damping systems. They have been designed to use in conjunction with SSK and SSRK piston kits, to give a more precise range of adjustment to the compression damping circuit.

- Improved adjustment needle design for more precise adjustment range
- Direct replacement of original parts
- Adjustment clicks for accurate adjustment

K-tech steering dampers are a lightweight aluminium design, which is available for many applications. Manufactured in conjunction with Toby Dampers, the steering dampers are available in seven lengths for road and race use, they are fully serviceable and come supplied with all the necessary mounting components to fit the make and model of the motorcycle.

- Adjustable
- Lightweight aluminium design
- Supplied with fitting hardware
- Fully serviceable
- Available for road or race use

K-tech 20IDS (Independent Damping System) front fork cartridges are a complete replacement damping system designed to fit into original equipment front forks that do not allow for external adjustment. The 20IDS cartridges are adjustable for spring preload, compression and rebound damping.

- 30 Clicks independent compression adjustment
- 30 Clicks independent rebound adjustment
- 18mm preload adjustment
- Range of spring rates available

K-tech RDS (Rod Displacement Damping System) cartridges are a complete replacement damping system to fit original equipment forks. Designed and manufactured in the UK, the RDS system uses a 14mm piston rod and 25mm control piston for improved damping performance, providing the rider with race level performance from their original equipment forks.

- 24 Clicks compression adjustment
- 30 Clicks rebound adjustment
- 18mm Preload adjustment
- 14mm Piston rod
- 25mm Control piston
- Aircraft grade aluminium
- Hard anodised and super finished components
- Wide range of spring rates available

**The RDS cartridges are only available through K-tech authorised dealers who have been trained to install these products. There are specialist tools and techniques required during fitting to guarantee performance and safety of this product.*

K-tech DDS (Direct Damping System) front fork cartridges are a complete replacement damping system designed and manufactured in the UK for high end racing applications. The DDS Cartridge is a pressurised damping system using 20mm displacing pistons to create a high flow of oil through the 31mm control valves, giving precise damping control. The patent design eliminates cavitation, making the system very stable under extreme conditions. The damping circuits work independently for improved dynamics and response time.

- 30 Clicks compression adjustment
- 30 Clicks rebound adjustment
- 18mm Spring reload adjustment
- DDS technology
- 31mm Control piston for increased feel
- Patent Design - Supplied with three pairs of springs and tools needed to change them

**The DDS cartridges are only available through K-tech authorised dealers who have been trained to install these products. There are specialist tools and techniques required during fitting to guarantee performance and safety of this product.*

The K-tech KTR-4 Front Forks uses the patented championship-winning DDS (Direct Damping System) technology, which has been designed to compete at the highest levels of motorcycle racing. The pressurised damping system uses 20mm displacing pistons to create a high flow of oil through the 32mm control valves giving precise damping control and eliminating any cavitation or lag, making the system very stable under extreme conditions. The damping circuits are designed to work independently to improve the dynamics and response time making it a serious option for any level of rider or race team.

The K-tech DDS 'Lite' shock absorbers have been designed as an entry level product for the rider that demands high level performance at a competitive price. Sharing many of the same high quality components as the DDS 'Pro' allows the DDS 'Lite' to perform to the same high level.

The K-tech DDS 'Pro' shock absorber has been developed in major championships across the world and has been designed for use at the highest level of racing. Like all other K-tech products, it has been designed and manufactured in the UK using the latest design software and highest grades of materials. As you would expect from a high quality racing product, the DDS 'Pro' features compression and rebound damping, length adjustment and hydraulic spring preload adjustment.

Adjustment	5 way	Piston Rod	12mm

The K-tech Razor-R Lite shock absorber is an affordable replacement option for middle weight motorcycles offering refined handling and enhanced performance over the standard equipment. Designed with quality and performance in mind, the Razor-R Lite shock absorber has an internal reservoir to separate the nitrogen gas from the damping oil to give stable performance. They are adjustable for rebound damping, spring preload and length to allow owners to improve their overall riding experience.

RAZOR^R

SHOCK ABSORBER

The K-tech Razor-R shock absorber offers refined handling and enhanced performance over the standard equipment. The Razor-R shock absorber is designed with quality and performance in mind, featuring compression and rebound damping, spring preload and length adjustment to allow owners of middle weight motorcycles to improve their ride with sporty aesthetics and improved performance.

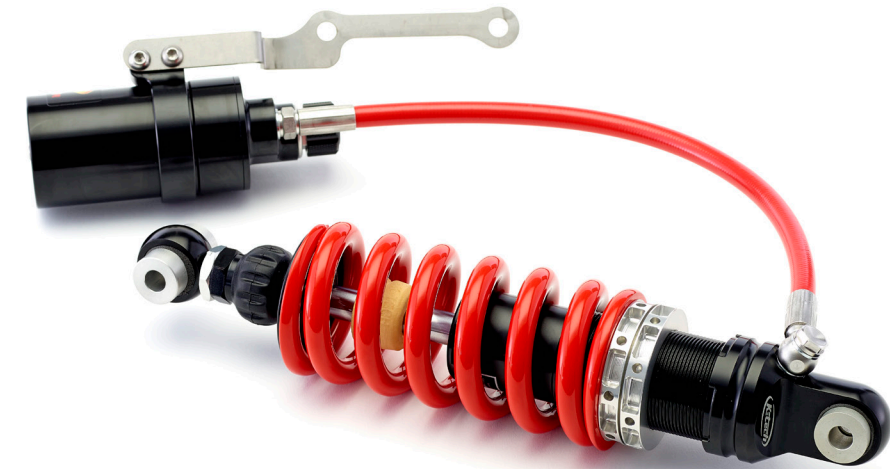

- Adjustment 4 way
- Compression 28 Clicks 
- Rebound 32 Clicks 
- Nitrogen Gas Charge ⁷N
- Pre Load Adjustment
- Length Adjustment 10mm
- Fully CNC Machined

CUSTOM

The K-tech Tracker front fork cartridges are a complete replacement damping system designed to fit into original equipment front forks that do not have external adjustment as standard. The Tracker cartridges are designed and manufactured to the same standards as all our other performance products, using the highest grade materials and processes. Refinement, control, stability and style comes as standard with the K-tech Tracker front fork cartridges, that are aimed at the custom/classic motorcycle owner. The Tracker cartridges come with external adjustment for spring preload, compression and rebound damping, allowing the rider to adjust the forks for all types of riding styles and conditions.

**The Tracker cartridges are only available through K-tech authorised dealers who have been trained to install these products. There are specialists tools and techniques required to guarantee performance and safety of this product.*

**The Tracker cartridges are not supplied with springs and need ordering separately.*

The K-tech Bullit is a innovative shock absorber that incorporates the latest damping technology along with the original look familiar with the customer bike owner. The unique springless design allows for a classic 'strut' type look without compromising on ride quality. This high technology shock absorber is nitrogen-charged to give constant damping control under all riding conditions.

- Increased comfort and control
- Forged aluminium parts
- Nitrogen (N2) filled
- Patent design
- Simply bolts on to replace original equipment.

The K-tech Razor shock absorbers offer refined handling and enhanced looks over standard equipment. The piggyback shock absorbers feature compression and rebound damping, spring preload and length adjustment to allow owners of twin shock motorcycles to customise their ride with sleek looks and improved performance.

- Compression damping adjustment
- Rebound damping adjustment
- Spring preload adjustment
- Length adjustment
- Nitrogen (N₂) filled
- Anodised black finish
- Simply bolts on to replace original equipment
- Spring rate options available
- Increased comfort and control
